

## LSA MEMBER SCHOOL ATHLETIC DIRECTORS / PRINCIPALS

Submitted by Ron Moll, LSA Director

Lutheran High School Springfield Illinois suffered major mine subsidence during the summer 2022 and will no longer be able to use the campus. As a result, the school will be selling several items related to the gymnasium.

Those items include:

Two (2) Nevco LED (wireless) scoreboards – one 3 foot by 8 foot and the other 6 foot by 8 foot including the controller.

An 8 foot scorer table, several acrylic gym backboards.

All the bleachers

In addition to the gym items many other school related furnishings will also be sold, but at this time we are in the process of creating a list and asking price.

We don't have a lot of time because what is not sold outright will most likely be turned over to an online auction and then it will be out of our hands.

If any of the above listed gym or other school items are of interest to your school, please contact us. We would prefer these items go to Lutheran school(s) if possible.

Thank you
